businesses are excepted.Plants classed from A to E, covering
domestic consumption, ice and cold
storage plants, public utilities, state,
city and other institutions and asy-
lums are also excepted by the com-
mittee's order.This order will have no direct af-
fect on the local theaters and moving
picture shows as they close their
shows before 10:30 each evening. The
order will, however, most seriously af-
fect stores as it requires them to dis-
continue the use of light and heat at
4 o'clock in the afternoon. This comes
as a serious blow to local merchants
just now at the beginning of the
Christmas season but it is confidently
hoped that the coal situation will have
been finally solved by the time Mays-

WINDOW GLASS SPECTACLES NOT DANGEROUS

If you had your choice between giving up everything you have
in this world and losing your eyesight, I am sure you would keep
your eyes. Trouble is we never think of these things until we're
brought face to face with them. Many people buy spectacles from
peddlers that do more harm than window glass spectacles. If you
value your eyes, consult only a reliable sight specialist. Come toM. F. Williams Drug Company

held this year in Cincinnati and as the
convention is being held so very close to
Maysville it is expected that there
will be a good sized local delegation in
attendance.For many years the Mayor of Mays-
ville has named a delegation to officially
represent the city at such meetings but as the majority of these meetings
have been held at such a distance from
Maysville, very few have been able to attend. Maysville has had one
delegate at most every convention held
since the organization of the associa-
tion.Information from Mr. Bowman is to the

OUR POLICY

To support such measures as are unquestionably for the good of Mason County as an entire community, rather than such propositions as are in favor of the individual interest, or of one section as against another. And likewise to earnestly and consistently oppose all things that are not for the good of the County as a whole.

PSYCHOLOGY OF DAYLIGHT SAVING

The "psychology of daylight saving" has been investigated by Prof. George T. Patrick, of the University of Iowa, who makes some interesting observations in the November number of the Scientific Monthly. Dr. Patrick believes that the extreme conservatism of the American people had much to do with the failure of the daylight law. As an example of this he cites our present cumbersome system of weights and measures, pointing out that only the attitude of "we've got along so far, why change?" has prevented the introduction of the simple and convenient metric system.

Many people could not reconcile themselves to standard time when Congress adopted it. For this reason putting the clock forward was a radical step in the routine of many lives and they never could forget the old system. In this connection it will be noted that the cities which have passed their own daylight saving ordinances, after Congress repealed the national law, are among the most progressive in the country, whereas the chief opposition to the law has been manifested in sections where extreme conservatism insist on retaining anything that has worked well enough before.

In continuing his psychological inquiry, Prof. Patrick asserts that with the increased use of the electric light there has come a steady displacement in the relation between the daylight day and the human day, the majority of people rising two, three or even four hours after daylight and remaining up three, five or six hours after daylight. "Every year," he says, "it seems a little harder to go to bed or to get up at the accustomed time. Automobiles are a factor in late hours. College or high school students study at later hours or give themselves more time for social diversions. It is out of date to go to bed early. To meet the requirements of modern life more and more of our industries continue thru the night.

The professor believes that the discontinuance of daylight saving will be only temporary as he maintains that it represents just what the present age stands for—health, economy, conservation and common sense. He is of the opinion that farmers and milkmen made no good case against the law but that they could have easily adjusted themselves to it. He declares that "the need for synchronizing farm and city hours of labor during three or four months of the year is not so great as to ask a whole nation during the entire summer to begin its work an hour later in the morning and live by artificial light an hour later at night." He believes it is very likely that in the end daylight saving, already reintroduced in many localities for public health and pleasure and industrial efficiency, will become a national law. Its defeat apparently was accomplished not by a majority, but by an organized minority.

LET'S HOPE HE'S RIGHT

Hermit Joe of the Big Kinuzza, Pennsylvania, predicts a "darn mild" winter, basing his prediction on the fact that the woods folks, bears, squirrels, etc., are scantily equipped with fur this fall. Anybody who has priced a fur solar in the stores recently will be rather of the opinion that high prices account for the thin coats of American fauna. They may have decided to wear last year's coat, and so have we.

After President Wilson has permitted bandits to drive American investors out of Mexico and Central American countries, and British or German investors secure control of all the best oil properties, perhaps he will awake to the importance of oil as a fuel in the operation of a merchant marine, a navy, and industry in general. But, as usual, he will awake too late.

Helps Restore Worn-Out, Thin-Blooded Men and Women to Health and Happiness—Physicians Recommended It—Sold in Liquid and Tablet Form Both Possess Same Medicinal Value—Insist on "Gude's"

Most every case of a sallow complexion and a languid feeling is traceable to watery, impoverished blood deficient in oxygen-carrying red blood cells.

Inasmuch as the entire system depends on the blood for its nourishment and strength, it is readily understood why thin-blooded people always feel worn-out and run-down.

And it is equally plain that to restore the vigor for rugged health, the blood should be supplied with the needed qualities to enable it to build up the system.

Gude's Pepto-Mangan accomplishes this very result. In a short time the beneficial results are clearly manifest. The cheeks fill out and regain the bloom of health, the eyes sparkle, the step regains its elasticity, the whole system is filled with greater vitality.

Gude's Pepto-Mangan is a safe, beneficial and pleasant tonic. Agrees with the most delicate stomach, and is obtainable in either liquid or tablet form.

Be sure the name "Gude's" is on the package when you buy Pepto-Mangan. Ask the druggist for "Gude's". If "Gude's" is not on the package it is not Pepto-Mangan.

There is an undeniable quality of goodness in the distinctive appearance of Liberty design.

Its inner goodness is at once revealed by the difference in the way the car rides and drives.

It is the kind of goodness that makes and keeps friends.

Its good repute is best expressed by the fact that many Liberty owners repeat their purchase with another Liberty, and are satisfied with no other car but a Liberty.

In the covenant of the League of

Nations is embodied a paragraph which says that all countries not now having Red Cross societies shall form them for action of help prevent diseases.

IN THE DAY'S NEWS

Frank W. Haussig, who is to be a member of the new industrial conference called by President Wilson to meet in Washington today, is easily the dean of American economists at present and has won an international reputation. A native of St. Louis, he was sent to Harvard, where he was graduated with his bent for economics thoroughly developed. Supplementary study fitted him for a post of instructor on the topic in the Harvard faculty; in 1886 he became an assistant professor, and from 1901 to 1917 he held the Henry Lee professorship of economics in the university. In 1917 he was appointed by President Wilson to be chairman of the National Tariff Commission. The "Tariff History of the United States," which he published in 1888, at once established his standing, and later books on wages and capital, the principles of economics and his standing, and later books on wages and capital, the principles of economics and inventors and money-makers have contributed to his reputation at home and abroad.

Samuel M. Ralston, former governor of Indiana, born in Tuscarawas county, Ohio, 62 years ago today.

Membership in the American Red Cross is not a duty—it is a privilege. Join for 1920 during the Third Roll Call, November 2-11.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the inner ear, the only way to cure catarrhal deafness, and that is by a constitutional remedy. The claimed condition of the mucous lining of the Eustachian Tube. When this tube is normal it is open, running from the nose to the middle ear, and when it is closed, deafness is the result. Unless the tube is restored to its normal condition, hearing will be destroyed forever. Many cases of catarrhal deafness can be cured by Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists. 75¢.

A Good Rain Coat

IS HARD TO GET

But we make it our business to get good ones. For its our bread and meat. Sell any man a good article, brings him back again. We try to do this in everything we sell, but especially raincoats. \$7.50 buys a fair Raincoat. \$10.00 buys a good one. \$12.50 buys one guaranteed to be absolute water proof. Then they run up to as high as \$40 to the imported gaberdines.

TYPHOID FEVER DEVELOPING THROUGHOUT CITY RAPIDLY

Citizens Are Again Warned to Boil Drinking Water and Take All Precautions Against Typhoid Fever—Several New Cases Are Reported.

Several new cases of typhoid fever in the city of Maysville have been reported to the local Health Department and again the warning has gone out that every one using city water to drink should boil it very thoroughly before drinking.

It appears that there is, under the present conditions, nothing for either the Water Commission or the Water Company to do to relieve the situation and the best advice, physicians say, that could be given the Maysville public is that, wherever possible, city water should not be used for drinking purpose but that good cistern or well water should be used instead.

Under the present conditions the Water Company cannot treat the water so as to remove the mud and silt and because of the very high river the water is most unusually laden with mud. All who can possible use well or cistern water that has been examined and found fit for use should do so and those who are compelled to use city water should boil it by all means before use.

CONSTABLE RESIGNS

James McNamara, constable in the First Magisterial District, filed his resignation as such officer to take effect at once.

75-Acre FARM FOR SALE

As attorney-in-fact for all the heirs, and as administrator of the estate of Mary A. Tucker, deceased; I will, on THURSDAY, DECEMBER THE FOURTH, 1919, beginning at the hour of 10 o'clock a. m., on the premises; sell at public auction to the highest and best bidder, the parcel of land known as "THE DOWER TRACT OF THE CAMPBELL A. TUCKER HOME PLACE", containing 75 acres.

This farm is located less than six miles from Maysville, near the STONE LICK ROAD IN THE ORANGEBURG PRECINCT, and is a fine body of strong LIMESTONE SOIL, ALL IN BLUE GRASS (except 15 acres) for many years. EVERY ACRE OF THIS LAND IS TILLABLE, AND FOUR (4-5) FIFTHS OF THE ENTIRE FARM WILL MAKE GOOD TOBACCO GROUND FOR 1920.

There is on this farm a substantial two-story, six-room dwelling with garden; good cistern and all necessary outbuildings, with an extra good feed and tobacco barn. Abundance of water with never-failing spring. Near to schools and churches and located in a very desirable neighborhood.

AT THE SAME TIME AND PLACE

Farm stock: Four good cows, heifers, yearling calves, shorthorn bull, number of sows, sheep, and lot of poultry.

Farm implements: Mowers, drills, Randall harrow, plows, hay rake, sled, and about 1000 tobacco sticks, hay in stack; corn in shock.

Full possession given March first, 1920; purchaser may enter at any time after sale for inspection or other purposes.

Attractive terms made known on day of sale.

RED CROSS SEALS SALE IS STARTED MONDAY IN STATE

Monday First Day and Thousands Are Purchased In Campaign to Lessen Ravages of Tuberculosis in Kentucky.

Thousands of Red Cross Christmas Seals were sold Monday in the campaign for a fund to keep up the war on tuberculosis in Kentucky, but many thousands more must be sold if the sale is to end December 10 as planned.

The sales Monday far exceeded the first day of any previous sale of the little Red Cross Seals and the promoters hope the sale can be concluded December 10 with the quota of \$100,000 for Kentucky sold.

The seals are being sold in the cities by the school children as well as by public-spirited men and women volunteering their services for this duty. In Covington, Newport and Lexington prizes are offered for the school children selling the most seals. In Lexington Major Ernest B. Ellis, capitalist and philanthropist, who is serving as chairman of the men workers in that city, has offered prizes of \$100, of which \$50 is to go to the city schools and \$50 to the county schools for the children who do the best work as seals salesmen.

The money raised by the sale of the Red Cross Christmas Seals in Kentucky will be used in the employment of visiting nurses to teach the sufferers from the plague and their families the simple facts of sanitation so as to prevent the spread of the disease from those who now have it to those looking after them, to the sending of nurses wherever they may be needed, to the establishment of dispensaries and traveling clinics and in fact to every means known to science to prevent the development of tuberculosis and to cure its present victims. Seals should be put on every package, gift and letter sent during the holiday season. They cost a cent apiece. Health Bonds sell for \$5 to \$100. Health Bonds on sale this year for the first time.

Mr. and Mrs. George Shipley and son, Everett, were the week end guests of Mr. Eliza Farris and family of Muncie.

BOHEMIAN NEW YORK EXPOSED IN FEATURE

"A Girl in Bohemia", the sensational New York stage success, which William Fox has adapted for the screen and presents with Peggy Hyland as the star at the Pastime Theatre tomorrow promises to be one of the best offerings that the patrons of silent drama have witnessed. The dainty and charming star is said to be most happy in her impersonation of Winifred Myrc, daughter of a college professor, whose ambition to write a popular novel of so-called Bohemian life takes her from her simple home to the artists' section of the big city. Her adventures amid the Bohemian set of New York are amusing, interesting and full of dramatic situations.

William Fox has surrounded Miss Hyland with a cast of perfect balance, including Josef Swickard, L. C. Shumway, Betty Schade Edw. Cecil, Melbourne McDowell and Winted Hall.

The play from which this production was made was written by H. B. Daniel, and its run in New York was an unbroken succession of crowded houses.

POLICE COURT

In the local Police Court this afternoon Willis Dowden was fined \$5 and costs on a charge of using language calculated to provoke a breach of the peace.

WOULD CONNECT CHICAGO WITH NEW YORK

The Type Used in One Year to Publish Endorsements of Dean's Kidney Pills.

Of the many kidney remedies on the market today, none other is recommended like Dean's Kidney Pills. Fifty thousand benefited people gladly testify in the newspapers of their own towns. Forty-five hundred American newspapers publish this home proof of Dean's merit. The type used in one year to tell this wonderful story would make a solid column of metal twice as high as the world's highest mountain. Placed end to end the lines of type would reach from New York to Chicago. These miles of good words told by 50,000 tongues sound glad tidings to any Maysville sufferer who wants relief from kidney and bladder ills. Here's a Maysville ase. Don't experiment. Use the remedy endorsed by people you know.

Ben. P. Fleming, constable of Mason County, 217 East Lee Street, says: I have used Dean's Kidney Pills off and on for several years, getting them at Wood & Son's Drug Store, and they have been of great benefit. At times, my kidneys have been out of order and I have suffered from a dull, constant ache through the small of my back. The kidney secretions have been irregular in passage, too. A box or so of Dean's Kidney Pills have never failed to relieve me of the complaint in a short time.

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Dean's Kidney Pills—the same that Mr. Fleming had. Foster-Milburn Co., Mt. Gilead, Buffalo, N. Y.

SCHOOL TO TEACH CITIZENSHIP TO THE WOMEN IS PLANNED

Prominent Women Will Speak Here to a Maysville and Mason County Mass Meeting of Women.

With the apparent certainty that all women in the United States will be enfranchised by February, 1920, the State and National Woman Suffrage organizations are turning their attention to organizing schools to prepare women for intelligent discharge of the duties and responsibilities of citizens. Suffrage leaders every where are organizing "The League of Women Citizens" for the study of the problems of citizenship.

On Friday, December 5, at 2:30 p. m., Mrs. Desha Breckenridge, President of the Kentucky Equal Rights Association, and Miss Annette Beveridge of Baltimore, Maryland, representing the National Woman Suffrage Association, will speak to a mass meeting of Maysville and Mason County Women. Place to be announced later.

Mason county women have never been in the rear in any great work that has been given them to do—nor will they be in the rear in preparing themselves for the duties of voting citizens.
